

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

PUBLISHERS' ANNOUNCEMENT

For forty-eight years THE INSURANCE YEAR BOOK has appeared annually, growing steadily with the expansion of the insurance business, and adding new features to its mass of information as the conditions demanded. The publishers therefore take pride in presenting the forty-ninth annual edition, and in acknowledging the widespread recognition that has been accorded this publication, both in this country and abroad.

The 1921 edition of the YEAR BOOK is issued in two volumes, as heretofore, one being devoted to LIFE, CASUALTY and MISCELLANEOUS INSURANCE, and the other to FIRE and MARINE INSURANCE. Each volume contains the standard statistics regarding companies and their transactions that are necessary to perfect their history from year to year. These statistics are brought forward to include their transactions to December 31, 1920. Some of the principal features of this volume are briefly summarized as follows:

LIFE AND MISCELLANEOUS VOLUME

This volume covers statistics and information concerning legal reserve life insurance companies, assessment life associations, fraternal orders, stock and mutual casualty companies, assessment, accident and sick benefit companies, and a large amount of data covering foreign companies and business in foreign countries. A special section is devoted to Canadian organizations and business.

The Directory of Insurance Agents occupies about 230 pages, 4 columns to the page, and comprises about 55,000 names, being the most comprehensive list of its kind extant.

Medical Examiners to the number of about 1000 are listed.

Attorneys and Counsellors specializing in insurance are presented in a list numbering about 5000, and occupying 38 pages.

Colleges, Universities and Societies having insurance courses are also listed.

In addition to the foregoing, there is a considerable amount of other useful information presented regarding various features of the insurance business, each adding its quota to the value of this volume, which, aside from advertising matter, contains over 1,300 pages. The Fire and Marine volume is similarly comprehensive in covering its peculiar field.

Our thanks are due to the heads of Insurance Departments of the various States and to officers of companies for their courtesy and promptness in furnishing us with desired information.

THE statistics in the Spectator "Blue Book" bear out a few interesting statements made in the 1921 Year Book of The Travelers: "During 1920 burglary insurance was added to the lines in which The Travelers leads the world, the number at present comprising guaranteed low-cost life insurance, accident insurance, liability insurance, health insurance, workmen's compensation insurance, automobile personal injury and property damage insurance,

and burglary insurance. The Travelers stands first also in the volume of group insurance in force and is prominent among the insurers of plate glass, steam boiler, and engines."

These statements are interesting to agents because they know that no institution could secure and maintain leadership in so many lines unless the service to agents and to the public were tangible, actual, and valuable.

The PROVIDENT LIFE AND TRUST Company of Philadelphia, Pa.

Vice President Coolidge says "Look well then to the hearthstone; therein all hope for America lies."

The man who is looking well to his hearthstone is very apt to take out an endowment policy. It will carry out his purposes for his home if he dies, and it will also keep the fire on his hearth in his own old age.

And it is an unselfish policy, for it does not shift upon his children the provision for his own old age.

IMPROVED DISABILITY PROVISION

Claim may be made *as soon as disability occurs*—no probationary period.

Payments begin immediately on approval of claim—no probationary period. .

Monthly payments, lifelong, conditioned on permanence of total disability.

Immediate waiver of future premiums—no waiting until next anniversary.

Full amount of insurance paid when insured dies, without deduction for disability payments or for premiums waived.

This new disability provision brings the service of America's oldest legal reserve life insurance company still closer to the needs of the insuring public.

STATUTORY REQUIREMENTS

SYNOPSIS OF THE STATUTORY REQUIREMENTS OF THE SEVERAL STATES AND TERRITORIES AS THEY APPLY TO LEGAL RESERVE, OLD LINE LIFE INSURANCE COMPANIES OF OTHER STATES

In the following pages will be found concise statements of the statutory requirements for the admission of life insurance companies to do business in the respective States. In this brief form, the synopses are intended more as a hint than an actual guide, for it is not anticipated that any company in entering a State would be satisfied with anything less than the statutes themselves as their reliance as to conditions. Our summary, however, may be accepted as correct as far as it goes.

It has been our aim in preparing these synopses of the statutes to secure uniformity for all the States and to give the essential requirements in as brief a space as possible consistent with the statement of the facts. The synopsis for each State was sent to the supervising officer of such State and returned to us with his approval to date, or with such corrections as he deemed essential. We believe that the information given in this condensed form is as correct as it is possible to make it and will be sufficient to indicate to all interested the statutory requirements of the several States and Territories.

ASSESSMENT ASSOCIATIONS AND FRATERNAL ORDERS

The following brief synopses of the laws of the different States regarding the admission of assessment associations and fraternal orders will indicate the special requirements. For names of supervising officers see list of State officials.

ALABAMA.

The law of Alabama distinguishes between mutual aid associations and assessment life associations. Mutual aid, benefit and industrial companies or associations are defined as those issuing insurance against contingencies such as the birth or death of a child upon marriage, death, sickness, or physical disability, and to pay money or render aid to him or to others dependent upon him or beneficiary designated by him not exceeding the amount governed by the following limitations as to weekly benefits and death benefits to the insured or beneficiary. * * * The association's charter, together with the constitution, by-laws and certificate of membership or policy, must be submitted to the Insurance Commissioner; a membership of 500 bona fide members must be maintained, and from \$1000 to \$5000, according to amount of policy, weekly benefit or death indemnity, paid in as a benefit fund. Said fund may be in cash or satisfactory securities deposited with the Department. Annual reports to be filed by March 1. Alabama companies are allowed to set off against said licenses and taxes such amounts as may be paid as tax upon property of such company. The Insurance Commissioner shall act as attorney for service. The Insurance Commissioner has supervision of mutual aid and assessment life associations. Assessment companies must have 100 members and \$250,000 insurance in force to procure a charter. A deposit of \$5000 with the State is required upon receipt of charter, and \$1000 thereafter for each million at risk up to \$100,000. No policyholder can be held liable for losses or liabilities of an association by reason of his being a member thereof. Assessment companies of other States must have on deposit in the State where it was incorporated at least \$100,000 for the benefit of all the policyholders. Annual statements must be filed on or before March 1, showing the condition of the company on December 31 preceding, and its transactions for the year. Fee, \$101. The amount of every contingency insured against must be specifically stated in the policy.

Fraternal Orders.—The requirements of fraternal orders are embodied in an act which is without amendment, the Uniform Fraternal bill agreed upon by the national fraternal organizations and the convention of Insurance Commissioners. This act defines fraternal benefit societies and their form of government, provides what form of certificates shall be issued, how and where funds may be invested, requires annual statements, and gives the Commissioner power to examine into the affairs of any society at his discretion. The legal minimum standard of valuation of certificates is fixed as the National Fraternal Congress mortality table, with interest assumption of not more than four per cent.

ARIZONA.

No life insurance company or association, other than fraternal beneficiary associations which issued contracts, the performance of which is contingent upon the payment of assessments or calls upon its members, shall do business within this State, except such companies or associations as now are licensed to do business within this State, and which shall value their assessment policies or certificates of membership as yearly renewable term contracts according to the standard of valuation of life insurance policies prescribed by the laws of this State. Every such company or association must have assets of at least \$20,000 invested in securities such as are approved by this act, and must have paid in full all legal death claims for the last twelve months. Every such company or association shall, on or before February 15 of each year, file with the Corporation Commission a statement upon a form to be prescribed and furnished by the Corporation Commission, showing the true condition of the company or association, as of December 31 next preceding, and shall pay a premium tax as otherwise provided in this act.

Preliminary Documents.—The laws of this State no longer provide for the organization or authorization of assessment life or accident or health insurance associations; same having been repealed by Chapter 83, Acts of the 32d General Assembly. Assessment life insurance associations now authorized to do business in Iowa may continue so to provided they value their assessment policies or certificates of membership as year-renewable term policies according to the standard of valuation of life insurance policies prescribed by the laws of this State.

Section 1798-a was amended in 1917 by adding thereto the following: Provide, however, that the Insurance Commissioner of this State may authorize any health or accident insurance company or association organized under the laws of any other State or Territory, to do business in this State, if, under the laws of such State or Territory, health and accident insurance companies or associations organized under the laws of that State are permitted to do business in such State.

Such association shall not employ paid agents in soliciting or procuring members, except in the organization or building up of subordinate bodies or granting members inducements to procure new members. Examinations may be made not less frequently than once in two years. Before any such association can be authorized, copy of by-laws, rules, articles of incorporation and plan of business must be submitted to Commissioner of Insurance and Attorney-General. Section 1839-j of the Code requires that certificates issued on the basis of the N. F. C. Table and four per cent interest (or higher standard), shall be valued in the same manner as policies of level premium life insurance. This valuation is to determine the reserve liability. Section 1839-l requires that all accumulations of domestic fraternal, "held in trust for the purpose of fulfillment" of certificates, shall be invested in certain specified securities which shall be deposited with the Commissioner of Insurance. The valuation discloses the amount that should be accumulated as a reserve in respect of business classified in a group paying N. F. C. (or higher) rates.

LIFE INSURANCE HISTORY

YEARLY BUSINESS OF ACTIVE UNITED STATES LIFE INSURANCE COMPANIES FOR TWENTY YEARS, 1901-1920

The first State insurance department in the United States was established by act of the Massachusetts Legislature in 1855, and since that time annual reports have been issued by an increasing number of departments, and with growing completeness and fullness of detail, until at the present time nearly every feature of the insurance business is fully reported and brought under review for the enlightenment and benefit of the general insuring public.

There are now about two hundred and eighty active level premium American life insurance companies that are licensed and report to the various insurance departments, the principal items of whose statements are presented in the following pages, thereby saving laborious research through the various volumes of insurance reports. The figures in this department cover the twenty years 1901-1920, inclusive, for all active organizations.

A complete statistical history of all active United States life insurance companies, from the date of organization to the close of 1910, is contained in the work *Life Insurance History, 1843-1910*, published by The Spectator Company, price \$5. A copy of that work, in connection with the annual volume of *The Insurance Year Book*, will show the entire history of the life insurance business to date.

For lists of officers and directors see pages immediately following this department.

LIFE INSURANCE BY STATES

The following tables show the business transacted in 1920 in the States named by the various life insurance companies. While not attempting to analyze the business in individual States, the tables exhibit the amount of policies written, the premiums and losses of each company, and the amount of insurance in force at the beginning and close of the year. It is simply an exhibit of the volume of business in the various States and Territories, and conveys an approximate idea of the total business. A few States do not supply this information, and in such cases we have applied to the companies for particulars.
